

ELECTRIFY THE SOUTH

MONTHLY EV NEWSLETTER

DECEMBER 2019

It's been quite the year for electric vehicles in the Southeast. The Electrify The South campaign continues to charge forward through education and policy efforts in hopes that we can reduce carbon pollution, save you money, and provide some fun along the way. Thanks for sticking with us and if you're new here, welcome! Each month we feature the latest news and events across the Southeast focusing on electric vehicle policy and innovation.

In this month's double-issue we provide some updates on a campaign aimed to reduce our need for offshore drilling, introduce two new educational series, and take a look at a report that aims to address and include all communities when designing EV programs.

Thanks for reading and get excited for a new decade with even more EV content! If you aren't signed up for our monthly e-mails, you can [join our mailing list here](#). We look forward to providing important updates on clean transportation in the Southeast!

Charging forward into 2020,
Dory

Protect Our Coast: Drive Electric Half Year Update

This summer we launched Protect Our Coast: Drive Electric. We've met with local leaders from across Florida on the benefits of electric transportation. Take a look back at the past half year's worth of conversations with local governments about prioritizing electric transportation.

Demystifying EV Charging: Pre-School - ABC,

Do-Re-Mi

Check out this first post in a series of blogs by Dave Erb that are intended to demystify electric vehicle (EV) charging, both for prospective EV buyers and for new owners still getting to know their EVs.

Green Lights and Stop Signs: A look Back at Some Electric Vehicle Policies Proposed in North Carolina This Year

North Carolina's marathon legislative session was something of a mixed bag this year for electric vehicles. Read what policy pushed through, what stalled out, and what just broke down.

Separate EV Fact from Fiction in our EV Mythbusters Series!

The first myth we dive into? Purchasing an electric vehicle won't fit my budget. Start busting myths by sharing with your community!

Green for All Releases Equity Toolkit with Policy Recommendations

"Designing an Equitable Cap-and-Invest Program for Transportation" can help New England state officials craft and finalize their forthcoming multi-state "cap-and-invest" program, which is expected to be released in draft form before the end of December. The toolkit provides specific recommendations and policy guidance on what considerations need to be addressed to meet the needs of the region's underserved and disproportionately-impacted residents, and how to address those in the program design.

EVENTS

Driving on Sunshine:

Electric Vehicle Ride and Drive Events in Florida

We're recharging our batteries for the rest of the year. Sign-up for a test drive with us in 2020!

We hope our newsletter is helpful — please help us keep it going by **chipping in \$5 or \$10**. We also invite you to follow Electrify the South on **Facebook, Twitter,** and **Instagram** for daily updates on the latest EV news stories.
