

ELECTRIFY THE SOUTH

## MONTHLY EV NEWSLETTER

### JANUARY 2020

Our batteries are fully charged and we're ready to push the accelerator into 2020. This year there are many exciting electric vehicle bills (EV) and EV infrastructure improvements coming down the pipeline. If this is your first Electrify The South newsletter, welcome! Get ready for EV news, blogs, and events focusing on electric vehicle policy and innovation to land in your inbox each month.

In the first issue of the new decade, you can read the second post in our "Demystifying EV Charging" blog series, take a look at EV policy momentum in North Carolina and Florida and of course, RSVP to Driving On Sunshine EV Ride and Drive events in Florida!

Thanks for reading. If you aren't signed up for our monthly e-mails, you can [join our mailing list here](#). We look forward to providing important updates on clean transportation in the Southeast!

Charging forward into 2020,  
Dory

### 2019 in Review: Electric Transportation Momentum in the South

The Southeast's affinity for fast, innovative, high performing automobiles is legendary. So, it should come as no surprise that the EV market is taking off. In 2018, Southern states represented nine of the nation's top twenty fastest growing EV markets. This momentum sparked 2019 actions, especially in North Carolina and Florida. Read 2020 highlights from the Tarheel and Sunshine states.

## Demystifying EV Charging: Elementary My Dear Watts-In

The second post in our EV Charging series for both prospective EV buyers and new owners is live! In Dave's post, he looks at different types of chargers and highlights a free, friendly tool you'll want in your back pocket.

## Florida 2020 Legislative Electric Vehicle Roundup

The 2020 Florida Legislative Session has begun with a handful of bills addressing electric transportation. Most are focused on building out charging station infrastructure. Read more on the proposed legislation and which bills may make it over the finish line.

## Reducing EV Charging Infrastructure Costs

Rocky Mountain Institutes's report "Reducing EV Charging Infrastructure Costs" finds that the electric vehicle charging industry needs to do what the solar industry did about a decade ago: streamline and de-bottleneck installation.

## EVENTS

### Driving on Sunshine:

#### Electric Vehicle Ride and Drive Events in Florida

After hibernating for the winter, our batteries are fully charged. Sign-up for a test drive with us today!

#### Driving On Sunshine: Fenway South Farmers Market in Fort Meyers

9 AM - 1 PM, Every Monday through March 9, 2020
